1. For some time rumors have been circulating in Bohemia that a move is being made in Slovakia to bring back Dr. Stefan Osuský, close friend of the late Milan Hodza and strong opponent of President Benes.
2. These rumors are now receiving a certain amount of attention in high Government circles. Some officials believe that they may help explain the recent departure for America of Jozef Lettrich, prominent Slovak politician. The rumors are further strengthened by the fact that Lettrich was accompanied by Fedor Hodza, General Secretary of the Slovak Democratic Party and son of Milan Hodza.
